

# Presentation Application Overhaul

## Contact information

Name: Sumir Mathur

Email Address: sumir.mathur8@gmail.com

## Project

Project Name:

- ***Presentation Application Overhaul***

Project Description:

- I understand that making good presentations slides is a cumbersome task. This project will help users achieve this task easily.

If would be willing and able to do other projects instead, which ones?

- RedPen Integration

Please describe why you are interested in this specific project:

- Making presentation look beautiful has always been interesting for me. Now to make a project that will help all users make their presentations look good is wonderful.

## Technical skills

Have good command over Javascript, HTML, CSS and Bootstrap and have a basic knowledge of Java as well.

I am currently working on two web based projects

- Front-end of my college's new website
- Website which is a collection of sample codes to support students and coders on implementation of algorithms.

Database experience:

- I have working knowledge of SQL which I have learnt as part of my curriculum

Projects I have worked on in the past:

- I have made an E-voting system in C++ in my 12th standard.

## Open Source

Interested in Open Source development

- I believe that all advancements made in the field of technology should be available to all easily. Only then can we increase the speed of our advancement in technology. I also want to contribute in the same.

## Background & education

School:

I have done my schooling from Banyan Tree School, Delhi, India

University: IIIT Kota

Branch at the college:

Computer Science

How many years have you attended there?

I am presently in second semester of B.Tech in Computer Science.

## Summer plans

What city/country will you be spending this summer in?

- Delhi, India

How much time do you expect to have for this project?

- 2 months

Please list jobs, summer classes, and/or vacations that you'll need to work around:

- No such preoccupations

## GSoC Experience

Did you participate in a previous Summer of Code project?

- No this is the first time I am participating.

Have you applied or do you plan to apply for any other Summer of Code projects? If so, which ones?

- Yes, I have also applied with Tux4Kids and SymPy.

Why did you decide to apply for the Google Summer of Code?

- I love to code and want to do the same in my summer vacations. Rather than just coding for problems I want to make a full project. Also to be associated with Google Summer of Code is a great opportunity for a Computer Science student. This is why I applied for the same.

Why did you decide to apply for an XWiki project?

- XWiki is an open source software development platform. I am interested to work on open source platform. Also this project requires the technologies I am familiar with.

## **Why should we take YOU?**

I am a coding enthusiast and am hard working. I have made some successful projects in the past and wish to work with you to achieve the same. I will strive my best to make it a successful project.
